Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: 1997 Company Organization Survey.

Form Number(s): NC-9901.

Agency Approval Number: 0607-0444.

Type of Request: Revision of a currently approved collection.

Burden: 90,832 hours.

Number of Respondents: 181,000.

Avg Hours Per Response: 30 minutes.

Needs and Uses: The Census Bureau conducts the annual Company Organization Survey (COS) in order to update and maintain a central, multipurpose business register, known as the Standard Statistical Establishment List (SSEL). In particular, the COS supplies critical information to the SSEL concerning the establishment composition, organizational structure, and operating characteristics of multi-establishment enterprises. The SSEL serves two fundamental purposes:

—First and most important, it provides sampling populations and enumeration lists for the Census Bureau's economic surveys and censuses, and it serves as an integral part of the statistical foundation underlying those programs. Essential for this purpose is the SSEL's ability to identify all known United States business establishments and their parent enterprises. Further, the SSEL must accurately record basic business attributes needed to control sampling and enumeration. These attributes include industrial and geographic classifications, measures of size and economic activity, ownership characteristics, and contact information (for example, name and address).

—Second, it provides establishment data that serve as the basis for the annual County Business Patterns (CBP) statistical series. CBP reports present data on number of establishments, first quarter payroll, annual payroll, and mid-March employment summarized by industry and employment size class for the United States, states, the District of Columbia, Puerto Rico, counties, and county-equivalents. No other annual or more frequent series of industry statistics provides comparable detail,
